**YENEPOYA
UNIVERSITY**
(Deemed to be University)

Recognized under sec 3(A) of the UGC Act 1956 | Accredited by NAAC with 'A' Grade

01 Is Yenepoya University NAAC accredited?

Yes. Yenepoya University is accredited with NAAC 'A' Grade.

National Assessment
& Accreditation Council

02 What is the benefit of studying in NAAC 'A' Grade Accredited Institute?

The National Assessment and Accreditation Council (NAAC) is an organisation that assesses and accredits higher education Institutions (HEIs) in India. It is an autonomous body funded by University Grants Commission of Government of India.

Many companies visiting different campuses in India prefer to hire students studying in higher NAAC accredited colleges with A grades. This increases the student's chance to be hired by different companies increasing the diversity of career opportunities available to students on campus. This same grading system is considered by international universities when they consider the applicants from India.

Many companies, as part of their campus recruiting programs, only look at 'A' graded colleges. An accreditation, consequently, increases the number of companies coming on campus. While applying abroad, colleges often look at the grading of your college to gain a better understanding of your performance as a student relative to your peer group. The higher the accreditation, the better it increases your chances for a favourable reply.

03 Does your college have add on program?

Yes. One or two add on courses are possible with the degree program. Two add on programs along with the degree is an exclusive feature of Yenepoya.

04 Is add on program a diploma or a Degree?

It is a degree Program. For instance, BBA with Aviation Logistics is a combined certified degree program. This is also an exclusive feature.

04 What is the benefit of two add on courses with degree program?

Employability and placement is possible in various field. Add-on courses are beneficial as it gives vocational education and certificate also. Rather doing simple degree, students prefer opting for add-on course along with it. Along with three years of bachelor's degree, students complete their add-on course as well, and it gives weightage to their degree too.

05 Are your courses associated with Multinational Companies?

Yes it is. IBM, Microsoft, Red Hat, Cambridge Business English, Safe Express are the multinational companies that are associated with Yenepoya.

06 Are the above listed companies giving classes in the campus?

Yes. IBM, Microsoft, Cambridge Business English, Safe express are giving classes in the campus.

07 What is the benefit of "Cambridge business English certificate" along with the degree certificates?

BEC (Business English Communication) provide students work focused English language skills.

Business certification which is accepted for business studies programs abroad and jobs in MNC's.

BEC Exam is produced by Cambridge English. The Test Includes 3 levels BEC preliminary, BEC Vantage and BEC higher. This exam gives students lot of confidence.

The exams are accepted by universities, business schools and multinational corporations both in India and Abroad. So the Yenepoya Institute is providing free BEC Training in the campus with the IRS Group.

08 **What is the Credit Score of the Degree Program?**

Compared to other Universities and College the total credits of each course are between 120 and 140 which is the highest offered. All courses are designed on the basis of Choice Based Credit System (CBCS). Each course of study will have core and elective subjects, which allows students to choose an area of interest. SWAYAM courses are encouraged. CBCS allows students to choose inter-disciplinary, intra-disciplinary courses, skill oriented papers (even from other disciplines according to their learning needs, interests and aptitude) and more flexibility for students.

09 **What is a choice based credit system (CBCS)? What are its advantages?**

University Grants Commission has come up with the Choice Based Credit System (CBCS) programme in which the students have a choice to choose from the prescribed courses, which are referred as core, elective or minor or soft skill courses and they can learn at their own pace and the entire assessment is graded-based on a credit system. The basic idea is to look into the needs of the students so as to keep up-to-date with development of higher education in India and abroad. CBCS allows students an easy mode of mobility to various educational institutions spread across the world along with the facility of transfer of credits earned by students.

10 **Advantages of Choice Based Credit System:**

The students have more scope to enhance their skills and more scope of taking up projects and assignments, vocational training, including entrepreneurship.

The system improves the job opportunities of students.

The system will help in enabling potential employers assess the performance of students on a scientific scale.

The CBCS offers a 'cafeteria' approach in which the students can choose courses of their own choice.

The credit system allows a student to study what he prefers in his own sequence as per his interests.

They can opt for additional courses and can achieve more than the required credits.

Inter college/university migration within the country and outside becomes easy with the transfer of Credits. This means that it will be easier for foreign universities to come and offer courses in India.

11 Is your lab and Skill training centres is NABL and AHA Certified?

Yes, our lab is accredited by NABL and AHA. Laboratory accreditation activities are administered under the direction of the National Accreditation Board for Testing and Calibration Laboratories (NABL), involving Assessment Team and Accreditation Committee as recommending bodies.

12 How are the classes conducted for the students?

Digitalised learning and teaching are encouraged. The learning resources are all available on the Yenepoya (Deemed to be University) digital platform titled YENGAGE.

This enhances reinforcement of classroom teaching that is accessible at home and anywhere in the country. Each student is assigned to a mentor. The mentor will help resolve and overcome academic and personal challenges. Teaching and learning will be addressed to overcome the uncertainty of COVID- 19 pandemic through online and offline classes.

Dynamic methods of engaging students in activities that help develop their personalities and professionalism is part of the academic structure.

13 What skills are provided for the students?

Throughout the time of study, professional communication and grooming will be held through training from experts and specialists. Human values and life skills are also provided.
